EXTENSION HUB

Able to control electrical locks and provide dry contacts to open locks.

The Extension Hub combines with other Sensorberg product (e.g. Access Hub, Access Hub Lite). It does not work by itself.

PART 1 - ACCESS HUB LITE ASSEMBLY OVERVIEW

Note: This sample installation shows an Access Hub Lite, but the Extension board can also be used with the Access Hub and Access Hub Protect.

2

INSTALLATION PREREQUISITES

- 1 Flush Mounted Socket in wall, next to the door.

*
~125 mm height.

Note: dependent on Hardware variant. E.g. Access Hub Lite doesn't require a deep socket.

- 2 Compatible lock (12V e-opener or dry contact for electric lock)

- 13 Cat 5e (or higher) cable with PoE+.

PoE+ switch in server room provides private VLAN for Sensorberg devices.

The Building Hub requires PoE and must be connected to the private Sensorberg VLAN.

INSTALLATION MATERIALS

- 3 Access Hub Lite core

- 7 Sticker

- 11 Extension Hub Core

120mm x 135mm

- 4 Access Hub Lite frame

- 8 Small screw included in Flush Mounted Socket

x2
*
